

**-FOR IMMEDIATE RELEASE-**

**13 NOVEMBER 2024:**

**EXTENDED SWIM CLUB ROOM FOR GUNDAGAI CLUB:**

The Gundagai Swimming Club will enjoy a new space when the extension to the existing club room at the Gundagai Swimming Pool are completed.

The new club room has been extended by approximately 24m<sup>2</sup> and will see an area that will house more storage room for club equipment, new kitchenette facilities, fresh paint, and non-slip epoxy coating on the new floor surface.

The extension will open directly onto the pool area precinct with a roller door allowing for easy access to lane ropes and other essential equipment used on club and carnival events. New concrete paving will be installed along with a new gate at the side entrance with new concrete pathways and drainage along the full length of the club room on the exterior.

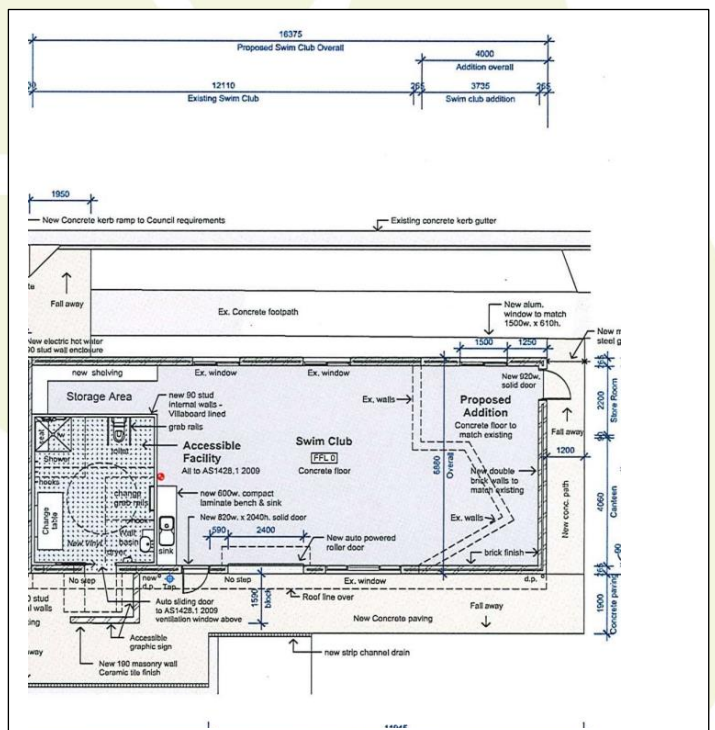

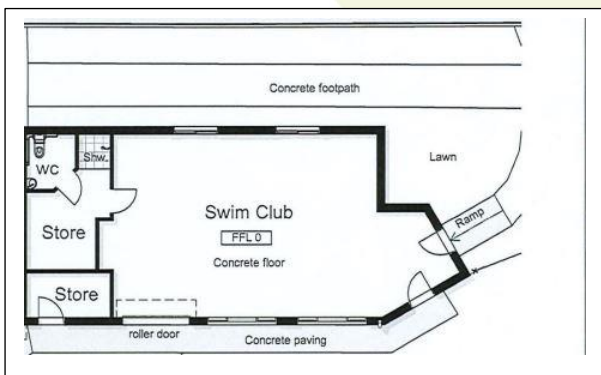

The new club room will provide a convenient and private space for swim club members to change, store their belongings and relax. The club room will also allow members the opportunity for social interaction, a meeting space and display area of club trophies and memorabilia.

Swimming Clubs have a lot to offer, often motivating young swimmers to improve their swimming techniques and learn new skills. Young and not so young are encouraged to join their local club to make new friend and enjoy the swimming experience.

The extension to the Gundagai Swimming Club rooms is part of the major refurbishment project currently nearing completion at the Gundagai War Memorial Swimming Pool which has been funded through a SCF - \$439,915 grant and \$120,000 contribution from the Gundagai Swimming Club. The combined sum of \$559, 915 is for the entire project to completion including works to be conducted by Council.
