Delivery and registration

1. The price submitted will include delivery to Cootamundra-Gundagai Regional Council's Depot William Street, Gundagai. Include the provision of the vehicles first scheduled service. All vehicles are to arrive with NSW registration for a period of 12 months and include registration paperwork to demonstrate appropriate registration.
2. Reimbursement of the cost of registration will be made separately; therefore the cost of registration should be invoiced independently.
3. Council will supply the Compulsory Third Party Insurance and the registration letter of authority to the successful supplier.

Transport for NSW – Requirements

All vehicles must meet all Transport for NSW requirements. Any manufactured equipment i.e. modifications must be fitted with the necessary engineer's compliance plates.

Safework– Requirements

1. Council's operators and at least one of Councils maintenance staff are to be trained in the safe operating procedures of the vehicle/s and all their associated equipment. This training must occur at the date and time of delivery and be scheduled at least 2 business days before delivery.
2. The training will also include but not be limited to pre-start checks and daily maintenance.
3. A complete risk assessment for the vehicle/s is to be completed and provided to Council upon delivery. The risk assessment is to be incorporated into the training.

Warranty

Details of all warranties are to be submitted with response. All terms and conditions must be clearly stated and include detail of any non-genuine equipment fitted along with any extended warranty that may be available.

Delivery

The anticipated delivery timeframe is to be clearly shown in the response.

Australian Content

The response should clearly set out what (if any) Australian manufactured components are to be included in the tipper truck and dog trailer offered.

Quotation Evaluation

Council will seek to obtain best value for money in any purchasing activity. Council will consider a minimum of the following when evaluating quotations:

- Price
- Operational costs
- Product quality
- Ongoing product support
- Supply and delivery timeframe of quoted items as well as spare parts
- Work health and safety benefits and risks
